## EMIRATES GAS

### AUTHORISED DEALER

## CENTRAL GAS BULK SUPPLY

Empower your work flow with the fastest, reliable and certified bulk supply. We are authorised dealers of Emirates gas.

## AL ABBAS CYLINDERS

one of the most efficient, economical and clean energy solution for your household and commercial needs and we are available across Dubai

## WHY?

CENTRAL GAS NETWORK SYSTEM IS PREFERRED FOR COMMERCIAL USES

One remarkable aspect of the UAE's approach to energy supply is its preference for central gas network as UAE is one of the global leaders in energy management and infrastructure development.

Our LPG Central Gas System is provided with cutting edge control systems to monitor and regulate pressure and distribution of gas. It is designed to be compatible with the Civil Defense's approved gas leak detection and monitoring systems offers enhanced and integrated control of the system. An LPG Central Gas System typically has an underground, above ground or mounded LPG storage tank connected to various utility appliances through a network of engineered LPG pipelines and accessories, such as vaporizers, emergency shut down systems, gas detection systems, gauging system, gas meters and pressure regulators as well as LPG receipt pipelines connected to a filling point.

- 
- Energy Efficiency and Reliability
